¹ Savings are estimates based on a Dell analysis comparing costs of several system management cost scenarios, such as OS deployment, power management and BIOS changes. Cost projections based on U.S. data dated 2007-2012. For more information, talk to your Dell Sales Representative.

The real world can be challenging, but you face the challenges head on. Latitude Rugged provides the tools you need to help you stand strong in the face of adversity.

Rugged for the real world

You can't slow down when the job is tough. No matter what challenges the world throws at you, handle them with confidence. Latitude Rugged means extreme durability for world-class reliability in rough conditions.

Productivity anywhere

You need to stay productive and work efficiently even when the elements are working against you. Latitude Rugged is designed for the way you work with features like outdoor-readable displays, glove-capable touch, legacy IO capability and advanced wireless connectivity.

Business-class control

Dell's Latitude Rugged portfolio allows you to take your business to the world's most challenging job sites. Latitude Rugged systems keep you in control of your technology with the same industry-leading security, manageability and reliability as the rest of the Dell Latitude portfolio.

- Common docking across Latitude Rugged notebooks with durable pogo-pin interface
- Sealed, customizable RGB backlit keyboard with Stealth mode
- Webcams with physical privacy shutter
- Powerful and efficient Intel® Core™ processors
- Intel 802.11ac Wi-Fi with optional mobile broadband and dedicated GPS
- Independently-certified to MIL-STD-810G tests and IEC ingress protection standards
- Confident security with Dell Data Protection | Encryption and TPM

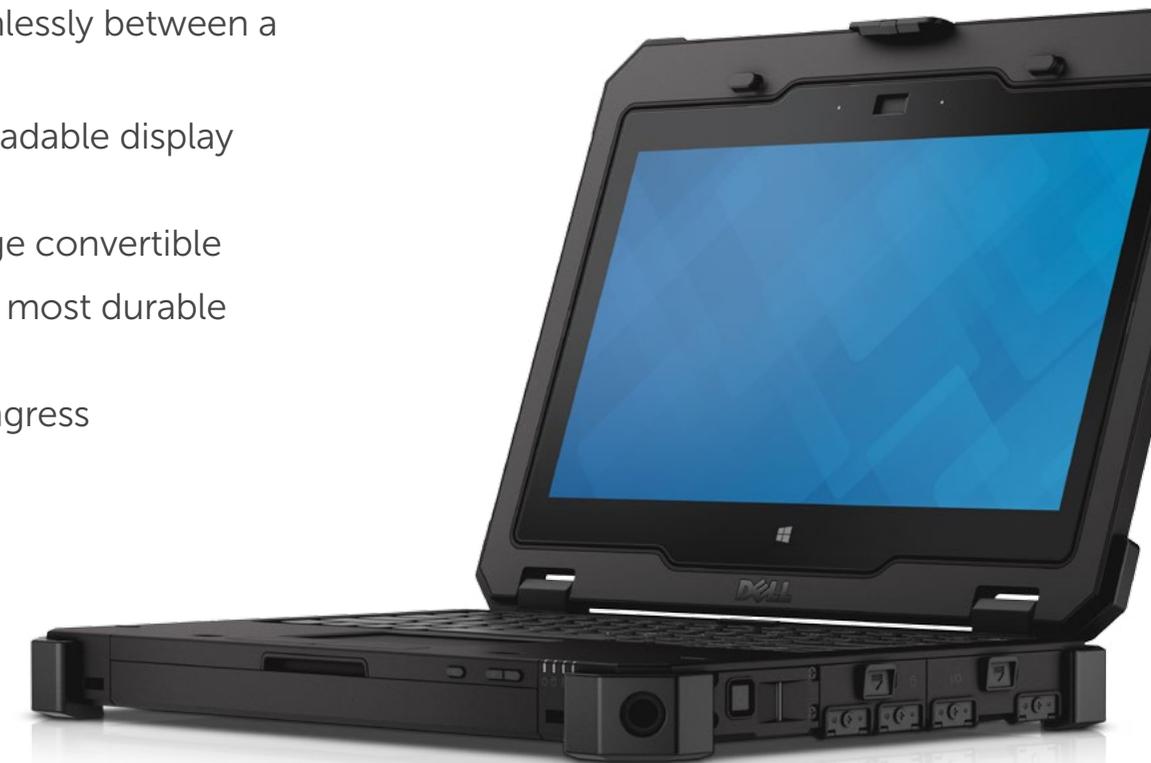

Adapt to
whatever
life throws
at you

Latitude 12 Rugged Extreme

The world doesn't stand still. You never know what the day will throw at you. You roll with the punches and so will your Latitude 12 Rugged Extreme with a flip-hinge display that converts seamlessly between a notebook and a tablet.

- Crisp 11.6" Direct-View outdoor-readable display with glove-capable multi-touch
- The industry's first rugged flip-hinge convertible
- Fully rugged construction with the most durable materials available
- Fully sealed from dust and water ingress
- Webcam with physical shutter and 8MP back camera with flash

Be bold
when the
going gets
rough

Latitude 14 Rugged Extreme

Life happens in the real world, where your notebook may be exposed to hazards such as accidental drops, vibration, water, dust and extreme temperatures. The Latitude 14 Rugged Extreme was built to thrive in the worst conditions you face on the job.

- Expansive 14" Direct-View outdoor-readable display with gloved-capable touch
- Fully rugged construction with the most durable materials available
- Fully sealed from dust and water ingress
- Optional discrete graphics
- Dual native serial and Ethernet ports and optional PCMCIA reader

Works as
hard as
you do

Latitude 14 Rugged

Get durable performance and productivity wherever work takes you with the Latitude 14 Rugged. Built from the same rock-solid DNA as our Latitude Rugged Extreme systems, trust the security, manageability and reliability that never settles for "good enough."

- Expansive 14" outdoor-readable display with optional glove-capable touch
- Rugged construction with durable materials
- Protected from dust and water ingress
- Optional discrete graphics
- Dual native serial and Ethernet ports and optional PCMCIA reader

Secure
your
command
center

Rugged docking solutions

It's never been easier to outfit your office or your entire fleet of vehicles with a single docking solution. Meet the industry's first portfolio-wide family of docking solutions with a desk dock and a family of vehicle docks from Havis; all compatible with the entire family of Latitude Rugged notebooks.

- Adapts to fit any Latitude Rugged notebook with a simple toolless adjustment
- Optional triple RF passthrough
- Industry standard crash and vibration certifications on the vehicle docks

Your job happens in the real world, an unpredictable place where drops, vibration, rain, dust, heat, humidity and a variety of other hazards are a reality. You can't afford to be down because of equipment failure.

Latitude Rugged products are the result of extensive testing to ensure world-class reliability in the demanding conditions you operate in every day.

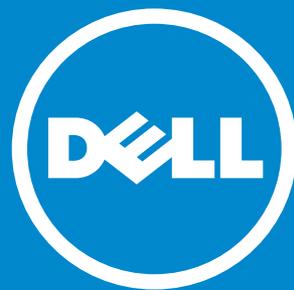

Tested
to fail.
Certified
to survive.

Latitude Rugged products are independently-certified to the standards including **MIL-STD-810G** and **IEC ingress** as well as **MIL-STD-416F** and **ANSI/ISA.12.12.01** on fully rugged products.

We go even further during development and take our products beyond the standards to find the breaking point, so we can address issues before they emerge in the real world.
